LABOR RELATIONS

UNITED STATES POSTAL SERVICE

July 16, 2021

Mr. Mark Dimondstein
President
American Postal Workers Union, AFL-CIO
1300 L Street, NW
Washington, DC 20005-4128

Certified Mail Tracking Number:
7020 3160 0002 0328 7630

Dear Mark:

This is in further reference to the Postal Service's June 15 and June 30 correspondence concerning the establishment of Package Support Annexes (PSAs) (copies enclosed).

The APWU requested a meeting regarding the PSAs, which was held on July 13. During the meeting, the Postal Service provided additional information regarding the PSAs, including equipment sets that will be used. Enclosed is a copy of the PowerPoint presentation that was given during the meeting.

Please contact Mike Faber at 215-432-0613 if you have any questions concerning this matter.

Sincerely,

Shannon R. Richardson
A/Director
Contract Administration (APWU)

Package Support Annex Discussion

UNITED STATES POSTAL SERVICE®

Package Support Annexes (PSAs)

The 2-year Package Support Annexes (PSAs) will provide transition space supporting the 10-year plan to modernize the processing and logistics network. In the interim, they increase the Postal Service's Mail Processing package capacity and improves service performance through this modernization effort.

- The PSAs will initially have one or more equipment sets assigned that will help USPS reduce delayed inventory and respond to the increase in machineable and non-machineable packages in their service area of responsibility.

- The PSAs will also support increased capacity through the next 2 Peak seasons.

- The annexes on the following slides include the host Processing and Distribution Center or Network Distribution Center address and total square footage requested.

Annex Equipment

- The following list includes the machine set for each PSA and expected date of processing for the new SIPs machine.
- Each site has defined what the peak plans are for the PSA, i.e.- Originating, Destinating, MIXED, Non-Machineable
- Machines being deployed are either new (SIPS, FRS, MSA) or from the USPS network.
- If equipment must be moved, the Division Director of mail processing will request this through Jason DeChambeau, HQ Sr. Director of Mail Processing.

- SIPS = Single Induction Package Sorter
- FRS = Flexible Rover Sorter
- MSA = Manual Scanning Appliance
- SWYB = Scan Where You Band
- PSS = Package Scanning System
- LCUS = Low-Cost Universal Sorter
- RBUS = Robust Universal Sorter

Annex Staffing

- Not intended to be long-term annexes
  - Employees for the annexes will come from the host plant (part of the same bid cluster).
  - The bids needed for the PSA facilities will be determined locally.
  - RI-399 will be based upon the host plant. They must meet locally to determine if they need to add a new section.
  - Non-career will come from the host bid cluster.
  - Facility maintenance will come from host plant.
    - Custodial services
    - Maintenance on equipment
  - Manager or Supervision will be established as needed.

  - Initially plants were provided with PSE and MHA conversions for the annexes. The machine sets, number of machines, number of tours needed will all be locally determined. Local Management will determine the staffing and provide HQ with feedback if more staffing is needed from the host plant.

  - Any MVS or HCR routes added to support the annexes will be determined locally by Operations and TANS management following established procedures.
