Protect USPS Networks: Separate for Security

When plugging a smart mobile device (e.g., phone, tablet, or wearable technology) into a computer's USB port, the two devices can exchange information or malware.[1] At the United States Postal Service®, this could put sensitive information into the wrong hands and potentially affect our business and reputation.

To prevent a security breach, follow these important charging tips:

- **Use a wall outlet.** When charging, plug your personal device into an electrical outlet in an approved location, such as a break room.
- **Consider a portable charger.** Personal charging blocks and battery cases can help extend battery life.
- **Avoid public charging stations.** Cyber criminals may tamper with public charging stations, such as those found at airports, by installing malicious software.[2] Plugging your device into one of these stations could jeopardize your privacy, and make sensitive personal data potentially accessible to cyber criminals.[3]

Careless charging isn't the only way to put USPS® data at risk. When transferring information between computers, only use USPS-approved flash or hard drives. The Postal Service™ has a full list of approved devices to help users share data safely at *blue.usps.gov/cyber/utilize-encryption.htm*. As the network that binds the nation, the Postal Service is committed to handling the public's information with care.

Plugging any personal devices — even personal gadgets like e-cigarettes — into USPS equipment violates Postal Service policy. For more information about cybersecurity best practices, visit the CyberSafe at USPS® websites on *Blue* (*blue.usps.gov/cyber*) and *LiteBlue* (*liteblue.usps.gov/cyber*), or the external website at *uspscybersafe.com*.

DMM Revision: Extra Services Refund Time Limit

Effective April 5, 2021, the Postal Service™ will revise *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®), sections 604.9.2 and 604.9.5, to reflect a change in the time limit for customers to apply for extra service refunds.

DMM Exhibit 604.9.2.1, "Postage and Fee Refunds," specifies that for Priority Mail Express® with an extra service, customers must apply for an extra service refund no sooner than 10 days and no later than 30 days from the mailing date. For all other classes of mail with an extra service, customers must apply for an extra service refund no sooner than 10 days and no later than 60 days from the date the service was purchased.

Certain extra services (e.g., Certified Mail®) have workflow timelines that extend beyond the current 10-day limit to file for a refund. As a result, to meet the required workflow timelines for these extra services, and for consistency in applying the refund processes, the Postal Service is extending the time limit to apply for a refund for Priority Mail Express with an extra service to no sooner than 30 days and no later than 60 days from the mailing date. For all other classes of mail with an extra service, the 10-day time limit will be extended to 30 days from the mailing date before customers may file for a refund.

The Postal Service believes this change will provide customers with a more efficient process and a consistent customer experience.

[Revise the first paragraph and 293.483a(1) to read as follows:]

The mailer may optionally prepare direct country sacks or mixed country sacks of presorted ISAL letter-size and flat-size mail when sacks are used for the following processing categories:

a. *Full-Service and ISC Drop Shipment — Direct country sacks*.

1. *Preparation.* Mail (letter-size and flat-size) that is addressed to an individual country and that contains 2 pounds or more must be sorted into direct country sacks. Mail that cannot be made up into direct country sacks must be prepared and entered as mixed country sacks or as worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size items as defined in 293.44. The mailer must bundle letter-size items and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 293.484.

Note: When using this option, the mailer may not place package-size items in the sacks.

b. *ISC Drop Shipment — Mixed country sacks*.

[Revise 293.483b(1) to read as follows:]

1. *Preparation.* Mixed country sacks can be prepared only after all possible direct country sacks have been prepared. The mailer must prepare mixed country sacks for items that contain 5 pounds or more and that are destined within the same price group. Mail that ultimately cannot be made up into direct country sacks or mixed country sacks must be prepared and entered at the worldwide nonpresort price. The mailer must bundle letter-size and flat-size items as defined in 293.44. The mailer must bundle letter-size and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 293.484.

Note: When using this option, the mailer may not place package-size items in the sacks.

Handbook EL-380 Revision: Detail Assignments and Executive Recognition Awards

Effective March 11, 2021, the Postal Service™ is revising Handbook EL-380, *Postal Career Executive Service,* subchapter 53 and part 543, to update policy and procedure for detail assignments and awards.

Subchapter 53, "Detail Assignments," is being revised to reflect updates to the Postal Service awards policy for eligible Postal Career Executive Service (PCES) detail assignments. Although detail assignments are primarily developmental, eligible executive and administrative schedule (EAS) and PCES employees may receive lump-sum payments for each 90-day qualifying period served in the detail assignment for up to 1 year. The revisions clarify eligibility requirements for PCES detail awards and include updated policy terms and limitations.

Additionally, part 543, "Executive Recognition Awards," is being revised to provide additional information on cash and non-cash awards available to recognize executives for extraordinary individual contributions. These revisions describe each award and provide other details for each award type, including eligibility, award basis, approval authority, and individual award limit.

Both updates will be published in the April 2021 edition of Handbook EL-380. Although the Postal Service will not publish these revisions until April 2021, the standards are effective immediately.

Invalid USPS Corporate Account Numbers

Provide this listing to Contract Postal Units and acceptance clerks in non-POS locations without intranet access to validate a USPS Corporate Account (USPSCA) number online. For all other locations, online USPSCA validation is preferred. This list supersedes all previous notices, which you must recycle.

Acceptance clerks must not accept Priority Mail Express® shipments bearing an invalid USPSCA number in the "Payment by Account" or "Agreement Number" section of the label or form.

Note: The first 6 digits of a 9-digit Custom Designed Service and Next Day Pickup Agreement make up the Corporate Account Number.

Missing, Lost, or Stolen U.S. Money Order Forms

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

Provide this listing to all Postal Service™ employees responsible for accepting and cashing postal money orders. Destroy all interim notices when the numbers listed appear in the *Postal Bulletin.* The new money order serial numbers consist of the first 10 digits. The eleventh digit is a check digit only.

Do not cash outdated money orders **104 151 601 to 692 600 000**. Advise holders to send invalid money orders to Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: $1,000 for domestic, and $700 for international Postal Service money orders.
2. Check that the proper security features are present:
   - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
   - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
   - When there is discoloration around the dollar amounts, this might indicate the amounts were changed.

   These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card,* or online at *usps.com/shop/money-orders.htm*.
3. If the money order seems suspicious, call the U.S. Postal Service Money Ordxxer Verification System at 866-459-7822.

Provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks must use the table with the Retail System Software terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply.

Environmental Management

Required Procedures for Environmental Regulatory Agency Site Visits and Notices of Violation

United States Postal Service® policy requires compliance with all applicable local, state, and federal environmental regulations, and full cooperation with environmental regulators.

Environmental Agency Inquiries, Inspections, and Site Visits

The site installation head *must immediately* report inquiries, visits, and site inspections by the U.S. Environmental Protection Agency (EPA), or any state or local environmental regulatory agency, to the appropriate USPS® regional manager, Environmental Compliance and Sustainability.

In addition, the installation head, or his or her designee, must follow the guidelines in *Standard Operating Procedure for Environmental Agency Inspections and Site Visits* to ensure appropriate support and facility compliance during environmental agency inspections at Postal Service™ facilities. The Standard Operating Procedure is available at *blue.usps.gov/sustainability/environmental/facility-inspection.htm*.

Note: In recent months, regulatory agencies are contacting sites directly via phone and email requesting environmental management records and performing virtual inspections. The site installation head must report any such virtual inquiry in the same manner as an in-person inspection.

Environmental Notices of Violation and Similarly Entitled Notices

A notice of violation (NOV) or similarly entitled notice can be issued to the Postal Service for failure to comply with an environmental regulation in the form of:

- A warning letter,
- Request for information,
- Request to show cause, or
- A notice of non-compliance.

Notices, issued from the EPA or a state or local agency, may occur as the result of a regulator site visit or inspection.

After becoming aware of an NOV or similarly entitled notice, the site installation head (or the Facilities project manager, if applicable) *must immediately* notify the appropriate regional manager, Environmental Compliance and Sustainability, and send an electronic copy of the notice. Reporting NOVs and similarly entitled notices ensures a timely and necessary response to critical items or anything that must be referred to the USPS Law Department.

USPS Environmental Compliance and Sustainability Points of Contact

The Office of Sustainability has a team of internal environmental compliance professionals available to assist sites by interacting with regulators, developing corrective action plans, and providing compliance solutions.

Timely reporting of environmental agency inquiries, site visits, and notices can minimize operational and financial issues for the Postal Service. Report an environmental regulatory agency inquiry, visit, or NOV (or similarly entitled notice) by sending an email to the appropriate regional manager, Environmental Compliance and Sustainability.

The regional manager will then assign a Postal Service environmental specialist to assist you:

- For facilities located within the Logistics and Processing Operations eastern region, contact Nicholas DeCarlo at *nicholas.decarlo@usps.gov.*
- For facilities located within the Logistics and Processing Operations western region, contact Judy Wingo-Stalinger at *judy.wingo-stalinger@usps.gov*.

Universal Waste Management: Waste Bulbs and Lamps Disposal Reminder

Waste lamps include inoperable or broken electric lamps or bulbs. Waste lamps are a potential safety and environmental concern because they may contain mercury or other toxic heavy metals. For this reason, several types of waste lamps are regulated as universal waste.

Since they contain toxic materials, universal waste lamps have specific federally mandated management and recycling requirements. Postal Service™ sites must store universal waste lamps in closed containers that are clearly labeled and properly train employees that manage these wastes. Additionally, sites must arrange for universal waste bulb and lamp pick-up (or mailback) and subsequent off-site recycling within 1 year (365 days) of the day the wastes were generated. Employees must also maintain accurate recycling records.

For more information about universal waste management requirements for waste bulbs and lamps, visit *blue.usps.gov/sustainability/bulb-recycling.htm*.

Common types of lamps that must be managed as universal waste include:

- **Fluorescent lamps.** This category includes 4-foot and 8-foot linear, U-shaped, circular, and compact fluorescent lamp (CFL) bulbs. Also included are "green-tipped" or low-mercury lamps, which must be managed the same as other fluorescent lamps.
- **Neon lamps.** Often used in brightly colored signs, neon lights that emit colors other than red use gases that may contain mercury.
- **High Intensity Discharge (HID) lamps.** HID lamps are often associated with large interior spaces with high ceilings, such as warehouses, exterior lighting, peripheral security lighting, streetlights, and fuel island lighting. They may also be found in motor vehicle headlights, as well as LCD or DLP projection television sets or projection displays.
- **LED lamps.** LED lamps may contain federally regulated metals, such as lead, chromium, or selenium. LED lamps are now available in 4-foot and 8-foot linear tube sizes and as replacements for traditional incandescent lamps and CFLs. They may also be found in motor vehicle headlights. Note that multiple, individual LED bulbs are typically contained in an LED lamp.
- **Ultraviolet (UV) lamps.** UV lamps emit high intensity UV light. Small UV lamps may be present in USPS® mail sorting automation platforms, such as the Advanced Facer Canceler System. UV bulbs may also be used in disinfection and germicidal lighting systems.

Recycling Options

The Postal Service has contracts for universal waste management with Cleanlites Recycling, Inc. (Cleanlites). The scope of services is available in eBuy Plus and includes both mailback recycling containers and on-site waste pick-up.

Additional contract information is available to Postal Service employees in the following Material Logistics Bulletins (MLBs):

- Mailback recycling containers: MLB-CO-19-003 at *blue.usps.gov/supplymanagement/_pdf/am_n-mcs_mlb19-003.pdf*.
- On-site waste pick-up: MLB-CO-18-003 at *blue.usps.gov/supplymanagement/_pdf/am_n-mcs_mlb18-003.pdf*.

Important Safety Reminder: Do not send waste bulbs or lamps through the mail to the Atlanta Mail Recovery Center or the Topeka Material Distribution Center.

National Nutrition Month: Eat Well, Be Well

March is National Nutrition Month, a time to learn about healthy food habits and choices.

Good nutrition can help you manage health conditions and lower your risk for serious problems. The key is making smart choices, including knowing what's in your food and how many calories you're consuming (see page 38).

When grocery shopping, for example, read food labels to learn about nutrients, calories, and serving sizes. Before dining out, look up menus and nutrition information online.

Refer to "My Plate" (*myplate.gov*), an online tool from the U.S. Department of Agriculture that recommends dividing your meal plate into four sections. Fill one-quarter of your plate with fruits, one-quarter with vegetables, one-quarter with whole grains, and one-quarter with proteins. A serving of low-fat dairy, such as milk or yogurt, is also suggested with every meal.

Other tips include making plates colorful with a rainbow of fruits and vegetables, so you have a variety of nutrients that look appetizing. You can also experiment with spices and new flavors to add dimension to your meals without adding excess calories. Keep empty calories to a minimum by choosing foods and beverages with less added sugars, saturated fat, and sodium.

Think about your eating habits and pick one or two ways that you can make healthier choices. Small changes can make a big difference over time.

For more information about nutrition, visit the following sites:

- U.S. Department of Agriculture (*nutrition.gov*).
- Centers for Disease Control and Prevention (*cdc.gov/nutrition/index.html*).
- USPS® March Wellness Toolkit (*liteblue.usps.gov/humanresources/benefits/health-wellness/wellness-partners-toolkits.shtml*).

Information Security

Spring Cleaning Starts with Your Desk

Bad news for all spring lovers — Punxsutawney Phil has seen his shadow and 6 more weeks of blistering cold winter is imminent. While bundled up inside, use the time to clean and clear your workspace to protect against cyberthreats. After all, it is never too early to start your spring cleaning.

How does a tidy workspace offer protection from cyberthreats? Keeping sensitive information, such as important documents, USPS® passwords, ACE ID numbers, and USPS credit cards off your desk and in secure locations will protect you from criminals who would exploit the information.

Here are some housekeeping tips to keep USPS information and devices secure:

- **Secure any USPS-issued device when not in use.** If you are working from home and do not have a laptop cable lock, secure your laptop in a closed file cabinet or a location out of plain sight. Never leave USPS devices in your vehicle.
- **Lock your computer screen.** Make sure your screen is locked by pressing the "Windows + L" keys simultaneously on your keyboard. Do not allow children, friends, or family to access any USPS-issued device.
- **Store all sensitive documents in a private and secure location.** Storage locations must not be easily accessible. Make sure you promptly shred and properly dispose of any sensitive documents you no longer need.

Need to report a lost, missing, or stolen USPS-issued device, or hard copy files containing sensitive, sensitive-enhanced, or critical information?

- Alert your manager immediately.
- Inform the Cybersecurity Operations Center by sending an email to *CyberSafe@usps.gov*.
- Contact your local Inspection Service office by calling 877-876-2455.

Read Food Labels

Serving Size

Serving size is based on the amount of food that is usually eaten at one time. It is not a recommendation of how much you should eat or drink. Pay attention to how many servings are in food packages and how much you consume.

Calories

For weight management, balance the number of calories you eat and drink with the number of calories your body uses. 2000 calories a day is used as a general guide. Your caloric needs will be higher or lower depending on age, gender, and physical activity level.

% Daily Value

Percent daily value is how much a nutrient in a serving of food contributes to total daily diet. The Daily Values are reference amounts of nutrients to consume or not to exceed each day. For example, if one serving of food has 10% DV of dietary fiber, then for that day, you have eaten 10% of your dietary fiber daily goal.

Reduce these Nutrients

Added Sugars

Added sugars appear in processed foods, sweeteners like syrups and honey, and beverages such as soda or juice. Eating food with added sugars can make it harder to meet recommended daily levels of nutrients and stay within calorie limits. The Daily Value for added sugars is less than 50 grams per day.

Saturated Fat

Saturated fat is often present in animal sources, such as meat and dairy products. The Daily Value for saturated fat is less than 20 grams per day. Try switching to unsaturated fats, which are found in plant-based oils (canola and olive oils), nuts, seeds, and seafood.

Sodium

Sodium is a mineral commonly present in table salt and many processed and packaged foods. The body needs sodium in small amounts. The Daily Value for sodium is less than 20 grams per day.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears on the following pages. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include postage issued after the date of the requested postmark. Such items will be returned unserviced.

Customers wishing to obtain a postmark must affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed next to the postmark.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers must submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail.
