Protecting Clerk Work in Smaller Offices – Function 4

PTF MAXIMIZATION TO FULL-TIME, ARTICLE 1.6.B – MANAGEMENT PERFORMING BARGAINING UNIT WORK, PTF AND PSE RIGHTS, CROSSING CRAFTS, STAFFING BASED ON AVAILABLE WORK HOURS, LEAD CLERK ISSUES.

PTF Maximization to Full-Time

- Article 7.3.B – “The Employer **shall** maximize the number of full-time employees and minimize the number of part-time employees who have no fixed work schedules in **all postal installations**.”
- History – National-Level Garrett and Gamser Awards gave important insight into Article 7.3.B but that should be just a start.
- In Level 18 & 20 offices, there is more than one way to convert PTFs to Full-time – Traditional or Non-Traditional Full-Time (NTFT) Regular.

Garrett - #ABN 3744 & Gamser - #NCE 9358

- Garrett – “There should be no serious question that the second sentence in this Section [7.3.B] requires the Postal Service at all times to maximize the number of full-time employees in all post offices”.

- Gamser – “… the Employer has the duty to maximize full-time positions, since the language of Section 3 states that he ‘shall’ do so”.

PTF Maximization to Full-Time

- J-CIM, Article 7.1.A (Page 36) – “NTFT duty assignments may have regular weekly schedules with total hours between 30-48 hours in accordance with the NTFT work rules as outlined in the NTFT MOU.”
- Article 7.3.B and the NTFT MOU are intertwined. We should use that to our advantage in maximization cases.

PTF Maximization to Full-Time

- NTFT MOU - #8. “PTF employees may work in Function 4 offices Level 20 and below. Offices Level 20 and below remain subject to the Article 7.3.B obligations to maximize the number of full-time employees and minimize the number of part-time employees.”
- NTFT MOU - #5. “Non-traditional full-time assignments will have no more than a 1-hour lunch. Exceptions: In post offices (level 20 and below) where necessary to accommodate the conversion of PTFs to full-time status, split shifts will be permissible.”

Other Avenues for Conversion

- Article 37.3.A.1 – “Every effort will be made to create desirable duty assignments from all available work hours for career employees to bid.” Use all available work hours to create a bid. If there is no FTR in the office, the bid will become residual vacancy with the senior PTF converted into the assignment.
- Article 7.1.B.6 – “When the hours worked by a PSE on the window demonstrates the need for a full-time preferred duty assignment, such assignment will be posted for bid within the section.” PSE hours worked on the window could also create a bid where the PTF would eventually be converted.

Other Avenues for Conversion

- Article 7.1.B.6 – Is the PSE working sufficient hours on the window to create an SSA duty assignment? What about a SSDA duty assignment? An SSDA performs both window and distribution work.
- 2020 JCIM, Article 7.1.B.4 & 7.1.B.5 (Page 39) – “For purposes of determining the percentage of PSEs who may work the window any career clerks are counted (both FTR and PTF) whose duty assignments include a position description with window responsibility (e.g., SSA, SSDA, LSSA, etc.). Window duties will not be unnecessarily added to duty assignment solely to circumvent this restriction.”
- USPS can use SSDAs for counting the percentage of allowable PSEs on the window. SSDA jobs should be available for creating a duty assignment under 7.1.B.6.

Can You Create a NTFT Duty Assignment?

- NTFT assignments can be created with as little as 30 hours a week.
- New language in Article 8.8 – PTFs guaranteed a minimum of 4 hours whenever requested or scheduled to work & a minimum work schedule of 24 hours per pay period.
- NTFT MOU - #5. NTFT assignments will have no more than a 1-hour lunch. Exception: In Level 20 and below offices where necessary to accommodate the conversion of PTFs to full-time status, split shifts will be permissible – This means a NTFT assignment can be up to 12 hours, including the split.

Article 1.6.B Global Settlement & Maximization to Full-Time

- Postmaster or supervisor in a Level 18 office may “perform no more than 15 hours of bargaining unit work per week”.
- “Bargaining unit work performed by postmasters or supervisors should be consecutive hours to the extent practicable, so as to minimize the necessity for split shifts for Clerk Craft employees, whenever possible” (Article 1.6.B. Global Settlement, CBA).
- Even though USPS has responsibility to avoid split shifts for our PTFs, the split shift is further proof that a PTF must be converted to full-time regular status based on the NTFT MOU, #5.

Put it All Together in a Grievance

- MDAT helps to combine all of these hours – PTFs, loaner PTF hours (see Q&A #19, 2020 JCIM, Page 265), PSEs, overtime regularly worked by FTRs, plus bargaining unit work and crossing crafts violations that have been settled in the grievance process – to show a conversion is warranted.
- Look for Traditional assignments as the first option, then NTFT duty assignments, which are still FTR. Once a PTF is converted to NTFT, we can utilize the 9-28-12 Megan Brennan letter and its Q&As to combine NTFT hours and PSE hours to either increase the NTFT assignment's weekly hours or create a Traditional FTR duty assignment. The first priority is to get the PTF converted to full-time.

MOU – Custodial Duties in Small Offices

The parties agree that when in small post offices there are two (2) hours or less of contracted out custodial duties in a day that cannot be combined with other maintenance duties to create a duty assignment, those duties will be assigned to an existing APWU bargaining unit duty assignment in the facility.

Q&As – 2-4-16 – Custodial Duties in Small Offices.

Brennan Letter and Q&As

- Q&A #5 – Does application of Article 37.3.A.1 and this principle of creating desirable duty assignments only apply to NTFT duty assignments?

RESPONSE: No. For example, an occupied traditional FTR bid duty assignment exists as follows: 0800-1650 schedule with Tue/Wed NS days. PSE A regularly works 0800-1650 with a Sunday NS day. PSE B regularly works 0800-1650 with a Saturday NS day. The traditional duty assignment could be reposted with Sat/Sun NS days. The net effect is a Traditional 40 - hour duty assignment can be modified when the Tue/Wed NS days are changed to Sat/Sun NS days.

Article 1.6.B – B/U Work in Level 18 Offices

- Global Settlement MOU – Bargaining unit work performed by PMs or supervisors should be consecutive hours, 15-hour limit weekly, only a supervisor or PM can perform b/u work but not both, M-32 requires PM or supervisor to complete 1260/1260-A.
- Two national-level awards from Das – All of the time the PM spends staffing the window counts toward the 15 weekly hours and the PM End of Day (PMEOD) button was discontinued.
- Two more national-level awards from Das that determined remedy for the two previous violations.

JCIM – Article 1.6

- In offices, Level 20 and above, with less than 100 bargaining unit employees, postmasters and supervisors may only perform bargaining unit work in accordance with Article 1.6.A.
- In Level 18 offices, the postmaster is permitted to perform no more than 15 hours of bargaining unit work per week. There will be no PMR usage in Level 18 offices.
- For Level 18 offices, bargaining unit work is defined as window transactions and distribution tasks, in accordance with Das' national award.

Article 1.6.B

- Continue to examine Postmasters' 1260s submitted for "errors" or omissions.
- Get clerks in Level 18 offices involved – they can help keep track of the number of hours PMs perform bargaining unit work each week.
- Remind the clerks in these offices that they will benefit from any 1.6.B violations in the form of back pay.

Article 1.6.B Violations

- Mittenthal national-level award (H1C-NA-C-97) – "… the purpose of a remedy is to place employees (and Management) in the position they would have been in had there been no contract violation."
- Everything the Union needs to prevail in Article 1.6.B cases is available if we just use these tools and remain vigilant.
- Postmasters will continue trying to get away with extending their 15-hour limit if we as a Union do not make them comply with the contract. That takes everyone involved.

Article 1.6.B Violations

- J-CIM, Article 1.6 (Page 23) – “Where bargaining unit work which would have been assigned to employees is performed by a supervisor and such work hours are not *de minimus*, the bargaining unit employee(s) who would have been assigned the work shall be paid for the time involved at the applicable rate.”
- The Mittenthal award (H1C-NA-C-97) – a proper remedy should place an employee in the position they would have been in had there been no contract violation. If the affected PTF would have been converted to full-time but for the 1.6.B violation, that is an additional remedy that should be pursued.

Lobby Assistants

- Clerk Craft work.
- Lobby Assistant is the correct title.
- LSSA should normally be performing the Lobby Assistant duties.
- If the LSSA is not available due to performing other Level 7 duties, an SSA should be assigned to perform these duties.

Lobby Assistants

Duties that a Lobby Assistant can perform:

- SSK (APC) duties
- Dutch Door
- Using MPOS to assist customers in line
- Other non-revenue transactions

Lobby Assistants

April 2016 Lobby Assistant SOP:

“Sales and Service Associates (SSAs) have the postal expertise required for successful lobby assistance.”

“SSAs are able to efficiently answer USPS product and service questions and offer suggestions to meet customer needs.”

Retail Clerks on the Window

Article 28, Section 1 – The Employer agrees to:

A. Continue to provide adequate security

B. Prohibit an employee from using fixed credit of another employee

C. Grant an employee the chance to be present during audits

D. Absolve an employee of liability for loss from cashing checks if the employee followed established protocols

E. Audit each employee's fixed credit at least once every 4 months

Retail Clerks on the Window

- Document all equipment failures – notify management in writing.
- Include the date, time, and type of equipment, e.g., RSS terminal, scale, calculator, etc. Make sure to detail the specific malfunction.
- For persistent RSS problems, call the HELP DESK so a ticket can be generated to document that a problem exists.

Retail Clerks on the Window

- Retail clerks are entitled to adequate training, including a certified OJI.
- Don’t take shortcuts. Management will encourage shortcuts to reduce wait in line time for customers, but they will not admit this if you end up with a shortage.
- Report all security problems in writing. Use APWU form “Report of Security Problem or Poor Financial Practice”.
- Put your checkbook away if you have a shortage. All money demands must be in writing, and you have the right to grieve the Letter of Demand.

Retail Customer Experience

- USPS uses Retail Customer Experience (RCE), which is designed to improve customer service.
- RCE should not be utilized as a tool for discipline.
- If you are issued any form of discipline under the RCE program, contact your APWU steward immediately.

Hub Clerk PTFs

- MOU, Re: Assignment of PTF Hub Clerks – PTFs may volunteer, in writing, to work in other Level 18 and 20 offices.
- PTFs may provide a notice in writing to their postmaster that they do not wish to work in installation other than their own.
- A PTF can rescind his or her preference to not work in other offices with a 2-week notice in writing.
- Can change preference up to 3 times per calendar year.

Hub Clerk MOU

- Pecking order for assignment to other offices under current MOU:

a. PTFs who volunteered to be loaned
b. Available and qualified PSEs
c. PTFs who preferenced not to work in other installations

- The Hub Clerk MOU was meant to give PTFs options, but it only went so far as to allow them to choose whether or not they wished to be loaned to other offices in their commuting area. PTFs cannot be forced/required to use their personal vehicles (MOU – Use of Privately Owned Vehicles).

2021-2024 Pilot Program – PTF Hub Clerks

- The parties agreed to a pilot program for up 6 locations nationwide.
- PTFs in selected pilot offices will be able to identify specific offices outside their home office (installation) to be loaned to.
- The pilot program also addressed the order/method of assignment of PTFs to other installations (seniority?).
- The pilot program not to exceed 6 months.

PSE Usage – POStPlan Offices

Level 18 Offices –

- No PSEs in Level 18 offices
- PSEs may work in 4-hour RMPOs under a Level 18 APO
- PSEs may work in other 4-hour and 2-hour offices within the installation (bid cluster) but not 4-hour or 2-hour offices outside the installation
- PSE may only work in Level 18 office to relieve a career employee on window duties to cover for short-term absences after all PTFs have been exhausted within the 50-mile radius (Hub Clerk MOU)
- 6-hour RMPO – a PSE can only be used as a relief after PTFs have been exhausted within 50-mile radius (Hub Clerk MOU)

PSE Usage – POStPlan Offices

Level 20 Offices –

- PSEs may be assigned as either D/A Code 81-3 (non-window) or D/A Code 81-4 (window qualified)
- 81-4 PSE only if there are at least 3 career window clerks assigned to the office
- PSE assigned to 4-hour RMPO under a Level 20 office may not be utilized in the Level 20 APO
- PSEs can only be used to relieve in 6-hour RMPO after all PTFs are exhausted within 50-mile radius (Hub Clerk MOU)
- PSEs in Level 20 APO can only be utilized in 4-hour RMPO after PTFs are utilized up to the straight-time rate

PSE Usage – POStPlan Offices

Level 21 Offices –

- PSEs may be assigned to Level 21 offices as either D/A Code 81-3 (non-window) or D/A Code 81-4 (window)
- 81-4 PSE only if there are at least 3 career window clerks assigned to the office
- PSE assigned to a 4-hour RMPO may not be utilized in the Level 21 APO
- 81-4 PSE from Level 21 office may be utilized to relieve any RMPO within installation because Level 21s don't have PTFs
- Level 21 office can borrow a PSE from a Level 20 or higher office but that PSE counts against the gaining office's window cap

PSE Usage – POStPlan Offices

Level 22 and Higher –

- PSEs may be assigned to Level 22 and higher offices as either D/A Code 81-3 (non-window) or D/A Code 81-4 (window qualified)
- 81-4 PSE only if there are at least 5 career window clerks assigned to that office. Every 10 additional window clerks earns an additional 81-4 PSE
- PSE assigned to 4-hour RMPO under a Level 22 and higher APO may not be utilized in the APO
- 81-4 PSE from APO may relieve any RMPO within the installation
- A Level 22 and higher office can borrow a PSE from a Level 20 or higher office but that PSE counts toward the gaining office's window cap

Amazon/Package Sunday Service

Step 4 dated 7-29-16 – Q10C-4Q-C-16035805 – Pecking order for Sunday work for Amazon offices.

1. PTFs or PSEs assigned to the gaining office at the straight-time rate
2. Available PTFs pursuant to the Hub Clerk MOU.
3. Available PSEs from Level 4 RMPOs but restricted to within 50 miles of the PSE's Level 4 RMPO office.

Staffing and Article 37.3.A.1

- Article 37.3.A.1 – “Every effort will be made to create desirable duty assignments from all available work hours for career employees to bid.”
- “Work Hours” not “Earned Hours”. The first is in the contract and second is not.
- USPS staffing programs – CSAW, WOS, 1994 Scheduler, etc. – management programs not agreed to by the Union. Don’t allow any of these management-created programs to dictate your arguments.

37.3.A.1 and Das

- The 7-24-20 national-level Das award (Q15C-4Q-C-18148486), Page 20 contains Footnote 8: “I express no opinion on whether this provision in a particular case might require the Postal Service to create an additional duty assignment for bid – not just modify an existing duty assignment – in a situation where the evidence demonstrates that such an assignment could be created from PSE and other work hours that is more desirable (hours/schedule) than one or more existing duty assignments.”
- This gives us the opportunity to concentrate on “desirable duty assignments” and the meaning of what is desirable.

USPS' Arguments in 37.3.A.1 Case

- Das, on Page 10 of his award, discussed one of the Postal Service's primary arguments in this case: "The Postal Service stresses that Article 7 is where complement-related provisions are located, including provisions that require the posting of new and additional duty assignments".
- The Postal Service had cited, as an example of their "complement-related" argument, Article 7.1.B.4 in the 2010 CBA, which is now 7.1.B.6 and is the language that requires a duty assignment be posted for bid "when the hours worked by a PSE on the window demonstrates the need for a full-time preferred duty assignment".

Use Management's Arguments

- In the maximization section of this presentation, we talked about Article 7.1.B.6. Cite the Das award to show that the Postal Service agrees with the Union on this provision.
- 7.1.B.6 can be used in conjunction with 37.3.A.1, which can also be combined with Article 7.3.B for maximization purposes.
- 37.3.A.1 can be cited with Article 8.2.C to argue that a duty assignment with split off-days should be changed to consecutive off-days to make it a more desirable duty assignment.

Use Das Award to Support 37.3.A.1

- Article 7.1.B.6 – Hours worked by PSE on the window demonstrates a preferred duty assignment – more desirable.
- Article 8.2.C – Consecutive work days when practicable means consecutive off-days – more desirable.
- Footnote 8 on Page 20 of Das Award – Where evidence demonstrates that PSE and other work hours create a more desirable (hours/schedule) duty assignment.

Other Staffing Issues

- There are Level 18 post offices with PTFs and no FTRs.
- There are Level 20 post offices with PTFs and PSEs, but no FTRs.
- The window is open in these offices for at least 8 hours a day, 5 days a week. How are these offices being staffed? Take away the PM's 15 hours in Level 18 offices and what is left in terms of staffing versus actual work hours? Clerk Craft position is that PMs don't have to work 15 hours a week of b/u work.
- In Level 20 offices, there should be no PM bargaining unit hours, so how is the window staffed each day and why isn't there at least one FTR in the office?

Cross Craft Violations

- First, determine how to approach, document and attack a cross-craft violation, depending on answers to certain questions.
- If the cross-craft violation is by a full duty employee (not light or limited duty), Article 7, Section 2.B & C applies.
- Article 13.4.M must be cited if the Local President was not given advance written notification of a cross-craft assignment to the Clerk Craft.
- If the employee crossing crafts is in a limited duty status, you will utilize other tools.

Article 7.2.B & C

- Two national-level awards: Bloch (H8S-5F-8027) and Mittenthal (H8C-2F-C-7406). They support our arguments that cross-craft assignments should be extremely rare, unforeseeable, cannot be used to avoid overtime or simply to maximize efficient personnel usage.
- It's unusual to find time records/clock rings that prove the violation, so accurate written statements from witnesses will be needed.
- LTAT Report (Loan, Transfer, and Training System).
- RMSS (Rural Management Support System), formerly RWHT (Rural Work Hour Tracker).

Limited Duty Employees Crossing Crafts

- Guffey/Devine MOU, dated 9-10-12.
- Brooks/Dean Step 4 settlement, dated 9-15-18.
- U.S. Department of Justice Memorandum, dated 3-19-12.
- Arbitrator Goldberg's 12-8-16 national-level SRT award – Q10C-4Q-C-14011344.
- Start with these documents in any case in which an injured-on-duty employee from another craft is performing Clerk Craft work.

Applying Previous Settlements

- Guffey/Devine MOU – Limited duty employees can only be assigned to residual vacancies or work otherwise performed by non-career employees.
- Brooks/Dean Step 4 – Injured on duty employees from other crafts are assigned Clerk work in accordance with Article 37, Guffey/Devine MOU, ELM 546. If newly created or revised position, such work assigned per the Goldberg national award.
- Dept. of Justice ruling – "unreasonable for the Employer to reassign a disabled employee in disregard of seniority rules."

Goldberg Award Q10C-4Q-C-14011344

- USPS had assigned limited duty employees from different crafts to perform the duties of Sales Retention Team (SRT).
- Goldberg cited the Guffey/Devine MOU regarding assignment of limited duty employees to residual vacancies, not newly created positions.
- He also noted the requirement of Article 37.3.A.1 to post newly created duty assignments for FTRs to bid.
- He found a violation of 37.3.A.1 and Article 1.5, which requires that each “newly created or revised position which contains non-managerial/non-supervisory duties” be assigned to the appropriate craft within 30 days of its creation or revision.

Assignment of Limited Duty to Cross Crafts

- USPS should only assign limited duty employees to residual vacancies or uniquely created assignments that would otherwise be performed by non-career employees.
- Cross-craft limited duty employees not placed into residual vacancies create a desirable duty assignment, in accordance with Article 37.3.A.1, which should then be posted for bid.
- Duties in a modified assignment may allow the opportunity to make a current clerk duty assignment more preferable, triggering an Article 37.3.A.4 reposting or the creation of a new additional duty assignment.
- If a modified assignment rises to the level of either a NTFT or Traditional duty assignment, it must be created and posted for bid to clerks in the bid cluster.

Cross Craft Limited Duty Assignments

- Desirable duty assignment (Article 37.3.A.1) – Chances are very good that a limited duty cross craft assignment is more desirable because it's not as physically taxing.
- Rely on the Brooks/Dean Step 4 to show USPS agrees that Article 37 must be applied in these cases.
- Goldberg's award follows up on the premise that limited duty work in many cases is a newly created position and Article 37 requires these jobs to be posted for bid to the Clerk Craft.
- Using these documents should mean that you never have to apply ELM 546. Injured on duty Clerks can request reasonable accommodation within their bid duty assignment.

ELM 546.142 (a) (1)

- “To the extent that there is adequate work available within the employee’s work limitation tolerances, within the employee’s craft, in the work facility to which the employees regularly assigned, and the during the hours when the employee regularly works, that work constitutes the limited duty to which the employees is assigned.”
- Before any assignment to the Clerk Craft, USPS must make every effort to locate work within the injured employee’s craft within his/her limitations.
- Request the injured employee’s CA-17 and modified job offer. Don’t hold your breath expecting to receive them.

CA-17 and Modified Job Offer

- The Postal Service is required to provide the CA-17 and Modified Job Offer (PS Form 2499) if the Union requests it (always request these two documents).
- If it's a limited duty case and the Postal Service refuses to provide the CA-17 and Job Offer, they can't prove they are complying with ELM 546 because they can't prove the employee is in a limited duty capacity.
- If this occurs, the grievance resorts to a straight Article 7.2 cross-craft violation.

Proper Remedy in Crossing Crafts Cases

- Cease and desist.
- Pay the affected clerks at the appropriate rate who would have performed the work had it not been for the violation.
- Post the duty assignment for bid that was created by the crossing crafts violation.
- It's not enough to receive pay for the violation – we want the work! Posting a new duty assignment is just as important, if not more so, than payment for the violation.

Lead Clerks in Function 4

- Clerk Craft Jobs MOU – Pages 348-349 - cover Lead Clerks
- The ratio (Section 2.C of MOU) of Lead Clerk assignments in the Clerk Craft complement of a Function 4 facility would normally fall within the 5-49 clerks = 1 Lead Clerk ratio, or there are less than 5 clerks in the facility. More difficult to get Lead Clerks in Function 4 offices because of less clerks.
- Lead Customer Service Clerk, Lead Sales & Service Associate: These are typically the Lead Clerks in a Function 4 office.

Lead Customer Service Clerk

- May work with or without direct supervision or as a working leader.
- Position is for use in Customer Service facilities that do not have retail window operations, except in large facilities (50 or more clerks), a Lead Customer Service Clerk may be used in addition to a LSSA.
- Makes Supervisor approved entries to correct time and attendance records.
- May provide service at public window for non-financial transactions related to mail.

Lead Sales & Service Associate

- Position is for use in Customer Service with retail operations.
- Maintains sufficient inventory of stamps and other retail products.
- Prepares local bank deposits and/or a consolidated funds bank deposit.
- Conducts product inventories and maintains an adequate supply of materials for operation of a retail office.
- Acts as a working leader to Level 6 SSAs and SSDAs.
- Maintains records, files and submits reports.

Lead Clerks in Function 4

- JCIM, Article 37, Q&A #138 – “What if there are currently more LSSAs than the number of Lead Clerks provided for in the MOU? Response: The minimum number of Lead Clerks, to be assigned by seniority, is determined in Section 2.C of the Clerk Craft Jobs MOU. The Employer may create additional Lead Clerk duty assignments based on operational need.”
- The Employer is not likely to create a higher level assignment on its own, so the Union will need to show it should be “based on operational needs”.

Lead Clerks in Function 4

- Compare the duties of a Level 7 LSSA or Lead Customer Service Clerk to those being performed by the Level 6 clerk.
- Are the Level 7 duties being performed every day? For instance, are they preparing local bank deposits and/or consolidating funds for bank deposits (performing close-out duties)?
- Get a statement from the clerk performing the higher-level duties on a daily basis. The statement must be specific as to which of the higher-level duties are being performed.
- If two or more Level 6 clerks are sharing the higher-level duties (e.g., different SSAs perform the close-out duties, but it's done on a daily basis), have all of them write statements.

Mixed Duty Assignments

- If a Level 6 clerk is performing some of the duties of a Level 7 Lead Clerk on a daily basis,, use Q&A #138 in conjunction with ELM 233.3 to argue there's an operational need for the creation of a Lead Clerk duty assignment.
- Cite ELM 233.3 – Criteria for Evaluating Mixed Assignments – a. Regularly scheduled to two bargaining unit positions on a daily basis. An employee performing the work of "separately defined bargaining unit positions in two different grades … is placed in the position of the higher grade."
- In the Clerk Craft, the assignment has to be posted for bid.

Non-Managerial & Non-Supervisory Duties

- The Clerk Craft must gain work other than traditional duties (Window, distribution, etc.).
- Article 1.5.A requires non-managerial and non-supervisory work to be assigned to the appropriate craft.
- MOUs – Clerical Work, Job Audits, New Positions and New Work, Clerk Craft Jobs – All of these MOUs should be utilized to gain new work (all of these MOUs could trigger new and additional duty assignments).

Examples of Duties That Should be Performed by Clerks

- MYPO
- Where is My Package (WIMP)
- Enterprise Customer Care (ECC)
- Ordering supplies
- Inputting TACS rings, reports, etc.
- Counting daily mail volume
- Entering daily volume in CSAW (Customer Service Adjusted Workload)
- All types of computer input
- Entering daily goals for SSA

Examples of Duties That Should be Performed by Clerks

- WEBATS
- Ordering stamp stock for window and SSK/APC
- Ordering other retail products
- Auditing SSK/APC stock, Ready Post, Retail stamp stock, cash
- Stocking stamp stock for retail
- Stocking Ready Post and other retail products
- General maintenance on SSK/APC
- Answering telephone inquiries
- Answering dutch door inquiries

Examples of Duties That Should be Performed by Clerks

- Monitor lobby to assist customers with SSK/APC and other non-revenue transactions
- Check reporting status of collection boxes
- Address Management System (AMS)
- Automated Vehicle Utilization System (AVUS)
- Collection Box Management System (CPMS)
- Customer Service Daily Reporting System (CSDRS)
- Delivery Operations Information System (DIOS)
- Mail Service Provider Program (MSP)

IN UNION SOLIDARITY, THE STRUGGLE CONTINUES

THANK YOU!
