Instructions for Completing Grievance Forms

These forms have been designed so that you can type information directly into the appropriate data fields and then print the forms on your computer's printer.

- The forms' data entry fields may be selected by clicking with a mouse in the appropriate field on the form.

- You can move between the fields by pressing the tab button on the keyboard to move forward or the shift + tab buttons to move backwards.

- When printing you should make sure that "annotations" in the print dialog box is not checked.

- If you have the full version of Adobe Acrobat, you can also save the form. Choose File (on the Acrobat Toolbar) and Save As if you wish to save the completed form.

- Click on the red Square at the upper left corner of the opened form to reset the form, i.e. clear data that has been entered.

- Click on the yellow question mark on the opened form to get instructions on using the form.

- Click on the question mark or Window button (top left) to close the help window.
